#### MUST HAVE SOME BILL.

Democratic Cancus.

WASHINGTON, July 28.-The senate will accede to the request of the house for another conference on the tariff bill, and its conferrees will return to the meeting with those of the house untrameled by any specific instructions whatever. This was the conclusion of the Democratic senatorial caucus, which adjourned sine die a few minutes after 5 o'clock yesterday, after a two days' sitting. While the canous did not commit itself to any definite line of policy in so many words, the confer-rees feel with their Domocratic colleagues that they understand what a majority of them desire and they believe this to be that they shall stand substantially for the senate bill. This is not the individual preference of many of the Democratic senators, but it represents the opinion of most of them, as expressed in the caucus, as to the only practical course open to the Democrats who think that the present congress must pass a tariff bill of some kind, whether it be what they prefer or not.

In other words the result of the caucus is the reascertaining of what was known when the three days' caucus closed last March, that it is im-practicable to pass any tariff bill through the senate which does not meet the demands of the so-called conservative senators and the Louisiana senators.

During the proceedings the attitude of the Populist senators, Allen and Kyle, who have generally voted with the Democrats on the tariff bill, was alluded to, and one of the senators present stated that he had been authorized by Senator Allen to say that he thought the bounty on sugar should be continued for the present. The suggestion was not received with

Senators Hill, Murphy and Irby were again absent from the cancus. There have been few secret conferreports emanated, and it was apparent that each senator took away an understanding to suit himself as to what implied instructions the confermant rees were under. Some felt that the senate bill had been adhered to, and others that the main point of differ-ence, the one-eighth of a cent per pound on refined sugar, was to be eliminated and perhaps a new sugar

schedule presented. CAFFERY ON SUGAR

The Louisianan Holds His Alleriance to His State as Paramount.

WASHINGTON, July 26 .- In the senate yesterday afternoon Mr. Caffery of Louislana took the floor and resumed his speech of Tuesday afternoon, but his remarks did not arouse much interest. He plunged immediately into the question of the complicated methods of refining sugar in Louisiana, which sugar went into competition with the sugars refined by the trust. He contended that the bounty provision of the McKinley law prevented the extensive refining of sugar by the producer. He made an elaborate argument to prove that, by virtue of the implied contract made with the sugar producers in the bounty provision of the existing law, the Louisiana sugar people asked no more than was their due when they asked for a tariff ample to continue the existence of their He maintained that a fair ad valorem rate of 45 per cent would furnish sufficient protection both to the producer and the refiner. He predicted that the Lousiana cane-grower with the new facilities coming into use would in a decade be able to hold his own against the sugar producers of the world.

Louisiana, he said, was a Democratic state, and did not desire to stand in the way of tariff reform, but he insisted that in marching to the goal of tariff reform his party should not trample the form of his prostrate state. If the tariff reform measure as prepared infringed upon his own ideas of what should be he should vote for it, unless it struck down his own state.

"Do you want a protective duty on sugar?" asked Mr. Stewart Populist,

of Nevada. "I don't," replied Mr. Caffery, em-phatically. "I want the duty on sugar laid purely for revenue purposes. The question presented is whether a great industry, built up under a revenue tariff, shall be stricken down by a change of theory." In concluding he said: "While the position taken by the Louislana Democrats may have somewhat alienated them from their Democratic colleagues, the fire of Democracy still burned in their breasts, but if tariff reform was pushed too far, he said it in sorrow not in anger, they would be compelled to vote against

the measure. He also enteres an emphatic protest against the provision in the sugar schedule continuing in force the Hawalian treaty admitting sugar from those islands free, which he said gave the sugar trust \$6,000,000 annually. 'As a loyal Democratic the position I have been trust \$6,000,000 annually. "As a loyal Democrat, the position I have been obliged to take has almost torn my heart out, but if the alternative comes, my allegiance to my state is

Mr. Quay gave notice of three amendments he should offer to the pending motion before the senate, first to smend Mr. Vilas' motion, that the news. the senate recede from the one-eighth differential in the sugar schedule so as to recede from the whole of the sugar schedule; the second to add to Mr. Gray's motion that the

senate insist on all of its amend-ments that it recede from the sugar schedule, and the third to add to Mr. Gray's motion another motion, name-

the communications were read which passed between the French government and the American embassy at Paris relative to the assassination of President Carnot. The secretary of the United States embassy stated that the resolutions of condolence of the This Was the Decision of the house and senate were read in the French chamber of deputies and senate amid great enthusiasm.

The conference report on the legis-lative, executive and judicial appro-priation bill was laid before the house and gave rise to considerable discussion, principally on the clause giving the commissioner of pensions \$350,000 (a compromise between the \$300,000 of the house and \$300,000 of the senate) for making special examinations. The report was agreed to. At 5:05 the house adjourned.

#### ARBITRATORS NAMED.

John D. Kernan of New York and Nicholus E. Worthington of Hillands.

Washington, July 26.—The president last night appointed the commissioners to investigate the controversies between certain railroads and their employes in connection with the 1,015 to 316. recent railroad strike at Chicago and in the West.

The commissioners will be Carroll D. Wright, John D. Kernan of New York and Nicholas E. Worthington of Peoria, Ill.

Mr. Kernan is a well known lawyer in Utica, N. Y., and a son of ex-United States Senator Kernan. He has been a particular and thorough student of the labor question and has written several important contributions to the literature on this subject. He was chosen because of his un-doubted thorough understanding of the subject and his well known sympathy with the laboring classes.

THE TARSNEY OUTRAGE.

Arrest of Several Persons at Colorado Springs Charged With Complicity. COLORADO CITY, Col., July 20. - Detectives from Denver yesterday arrested John Mullins, Herman Rubbake and C. C. McKimme at Colorado Springs for complicity in tarring and feathering Adjutant General Tarsney. They were held in bonds of \$5,000. Before bonds could be furnished Sheriff Bowers of Colorado Springs, demanded custody of the prisoners and took them to the county jail. Sheriff Bowers asked by what right the Denver detectives had made ar-rests in El Paso county, and was in-formed that they had been especially authorized by Governor Waite to act in the Tarsney matter. Legal compl cations may grow out of the matter.

The Denver detectives swore out a number of warrants, just how many is not known. It is claimed that of the number for whom warrants have been issued two are women, and of the remainder two are visiting in Iowa or Illinois and will be brought back. It is said that enough evidence has been secured to convict the

## CHINESE LAND IN COREA.

Twelve Thousand Mongolian Troopera Within Corea's Domain.

SHANGHAL, July 26 .- It is reported the 13,000 Chinese troops which left Taku on July 20 for Corea, conveyed by eight gunboats, have landed in Corea. The gunboats escorting the the transports had instructions to fire upon the Japanese if the latter obstructed the landing of this army. The other troops, which left Foc Chow for the Loo Choo islands, are also said to have reached their destination in safety.

It is stated that if the report of the landing of the Chinese troops unopposed is correct, the prospects of a peaceful settlement of the disputes between China and Japan are improved, as the Chinese fluet of transports and gunboats could scarcely have escaped the vigilance of the Japanese war vessels if the latter had been preparing to oppose the landing of the Chinese force. This is said to show that Japan is now more amenable to the counsels of the treaty pow-

Active Career of the Philadelphia Editor, Banker and Politician,

William M. Singerly, the Democratic sandidate for governor of the state of Pennsylvania, has never run for office before, although he has been prominent in politics for many years. He was

born in Philadelphia 61 years ago, was graduated from the high school in 1850 and spent 10 years in a commission house, receiving a thor

His father was a prominent street railroad magnate, and young Singerly displayed such shrewdness in the management of his sire's properties that he made a fortune. His father left him \$750,000 worth of street railroad stock, which young Singerly in a short time sold for double that sum.

In 1877 Mr. Singerly bought the Philadelphia Record, which, under his management, became a successful and influential newspaper. He is interested in many enterprises and seems to possess the touch that turns everything to gold. An illustration of the manner in which fortune smiles upon him is shown by his experience with the thoroughbred Morello. When Morello was a yearling, Frank Van Ness bought him for \$2,250 and sold a half interest in him to Mr. Singerly. As a 2-year-old in 1892 Merello won the \$70,000 Futurity. One of Mr. Singerly's hobbies is the development of horses and the breeding of Holstein cattle at his stock farm in Montgomery county.

He has built nearly 1,000 houses in Philadelphia, and his numerous and diversified business interests make him a very busy man. He has been an active Democrat since 1856 and took an especially active part in the presidential campaigns of 1884 and 1888. He is a personal friend of President Cleveland and an ardent champion of tariff reform. He is president of the Chestnut Street National bank and the Chestnut Street frust and Savings Fund company and owns among other things one of the largest paper and pulp mills in the United States.

James Stokes of New York city, who was recently made a knight of the Legion of Houor of France, is the second American to be thus decorated. Although he is a consin of Edward S. Stokes, the slayer of Jim Fisk, he has devoted his life to the work of upbuilding the Young Men's Christian association, and France's insignia of distinction was conferred upon him for his

JAMES STORES. services as a philanthropist. Mr. Stokes' father left an estate of about \$8,000,-000, and the son has devoted a considerable portion of his share to religious and philanthropic work. About a year ago Mr. Stokes finished a quarter of a century of labor as a member of the Amercian industrial committee of the Y. M. C. A., and for many years he has materially assisted the progress of the association's labors in Europe.

In fact, he initiated the work of the Y. M. C. A. in wicked Paris about 25 years ago by making such arrangements that the Paris association was able to meet in rooms of its own. The ambition of his life thenceforth was to see the day when the Paris Y. M. C. A. should have a palatial building of its own in the French metropolis. For years he has labored to carry out this project, and his efforts have at last been crowned with success. The building now stands at 14 Rue Trevise and was erected at a cost of 1,000,000 francs. Of this amount Mr. Stokes and members of his family contributed 400,000 francs, or nearly half.

Among the other contributors were R. C. Morse, Morris K. Jesup, Thomas K. Cree and Franklin Gaylord, all well known Americans residing in Paris, and Alfred Andre, a wealthy Paris banker, who alone furnished 200,000 francs toward the magnificent structure. The ing that it will make a one fare round | building has a gymnasium, swimming tank and baths, bowling alleys, bicycle track, library, parlors, restaurant, music room and sleeping rooms.

The presentation of the order to Mr. Stokes was made on behalf of the French government by M. Andre, and the interesting event occurred in the big Y. M. C. A. building the recipient had been work of the Y. M. C. A.
